COVID-19 VACCINATION ELIGIBILITY UPDATE

FDNY is now able to offer COVID-19 vaccination to FDNY WTC Health Program members – all ages, active or retired, with or without WTC disease certifications.

FDNY active members can still be vaccinated even if they have previously declined it or have had the COVID-19 illness in the past.

The department has successfully vaccinated over 35,000 people (FDNY and non-FDNY employees) without any serious side effects.

Please use the link www.fdnycampus.org via a computer to schedule an appointment at one of the four POD locations for the Moderna Vaccine. **Registration cannot be accomplished via a mobile device.*

- FDNY Headquarters, 9 Metrotech Center
- EMS Academy, Fort Totten
- Fire Academy, Randall's Island
- Susan E. Wagner High School, Staten Island

Instructions for making this appointment are attached. If you have any questions, please call either number below.

- WTC Health Program Help Desk:
  (718-999-1365 – Monday through Friday)
- FDNY Help Desk: (718-999-2611)

**Please note that all appointments are dependent on vaccine shipments meeting demand.*

Getting vaccinated is critical to protecting yourself, your loved ones, our FDNY family, and those we serve. This vaccine is 94% effective in preventing the COVID-19 infection after both doses. Even if you have recovered from COVID-19 and have antibodies, you still need the vaccine to prevent re-infection.

You can find more information at www.cdc.gov about the COVID-19 vaccine from the Centers for Disease Control and Prevention (CDC).

To accept or decline the vaccine go to the LMS webpage www.fdnycampus.org and follow the following steps

Username: Reference #
First time user Password: FDNYLMS1

Medical Questions COVID Hotline 718 - 999 - 0555
Technical Help number 718 - 999 - 2611
